Degree: B.E - CSE

2024_28_III_OOPS Using Java Lab

2028_REC_OOPS using Java_Week 3_Q2

Attempt : 1
Total Mark : 10
Marks Obtained : 10

Section 1 : Coding

1. Problem Statement

Monica is interested in finding a treasure but the key to opening is to get the sum of the main diagonal elements and secondary diagonal elements.

Write a program to help Monica find the diagonal sum of a square 2D array.

Note: The main diagonal of the array consists of the elements traversing from the top-left corner to the bottom-right corner. The secondary diagonal includes elements from the top-right corner to the bottom-left corner.

Input Format

The first line of input consists of an integer N, representing the number of rows and columns.

The following N lines consist of N space-separated integers, representing the 2D array elements.

Output Format

The first line of output prints "Sum of the main diagonal: " followed by an integer, representing the sum of the main diagonal.

The second line prints "Sum of the secondary diagonal: " followed by an integer, representing the sum of the secondary diagonal.

Refer to the sample output for formatting specifications.

Sample Test Case

Input: 3
1 2 3
4 5 6
7 8 9
Output: Sum of the main diagonal: 15
Sum of the secondary diagonal: 15

Answer

```java
// You are using Java
import java.util.*;

class dadWA{
    public static void main(String args[]){
        Scanner ip = new Scanner(System.in);
        int N = ip.nextInt();

        int [][]a = new int[N][N];

        for(int i=0;i<N;i++){
            for(int j=0;j<N;j++){
                a[i][j] = ip.nextInt();
            }
        }

        int m = 0;
        int n = 0;
```

```java
        int t = N;

    for(int i=0;i<N;i++){
        for(int j=0;j<N;j++){
            if(i==j) m+=a[i][j];
            if(j==t-1){
                //System.out.println(t);
                n+=a[i][j];
                t-=1;
            }
        }
    }

    System.out.println("Sum of the main diagonal: "+m);
    System.out.println("Sum of the secondary diagonal: "+n);

    }
}
```

Status : Correct   **Marks : 10/10**
